Olympic Glass is committed to providing a specialist safety glass and sealed unit manufacturing service, according to client's expectations in terms of quality, reliability and satisfaction.

The above level of quality is achieved through adoption of a system of procedures that demonstrate the competence of the company to existing customers, potential customers and independent auditing authorities.

Our Quality Assurance System is continually analysed to improve and comply with the International Standard. We achieve and maintain a high level of service and performance that enhances the company's reputation with customers. We ensure compliance with relevant statutory, technical and safety requirements and endeavour, at all times, to maximise customer satisfaction with the services provided by us at Olympic Glass.
